Lester Snow, Cal Fed Executive Director
Sacramento, Ca.

MAY 28 1998

Dear Executive Director Snow

I urge you to ensure that Cal Fed creates and selects a "Smart Alternative" (a fourth alternative based on conservation and restoration to provide ample + high quality water for Calif. families, wildlife, farms + businesses into the 21st C.

The "Smart Alternative" would:

1. ensure effective conservation programs + economic incentives to use our water more efficiently
2. maximize water efficiency before even considering costly new dams, reservoirs + canals.
3. restore and protect our watersheds + ground water basins for high-quality, reliable water for all
4. restore Calif. fish, birds, ~~wetlands~~ wetlands, rivers, delta + bays

Please enter these comments into the formal record for your Draft Programmatic Environmental Impact Report + Statement.

Sincerely,

Vivian L. Grover
