Alternative 9
(1A , 2B, 3B, 4A - MIN)

Category	Actions Selected	Functional Basis for Inclusion	Specification for Action Implementation
Restoration of Delta Shallow Water (Tidal) Habitat	-Protect existing shallow habitat from erosion	Habitat	
Restoration of Delta Riverine Habitat	-Restore/preserve channel islands	Habitat	
	-Modify construction practices to include riverine elements	Habitat	
Restoration of Delta Riparian Habitat	-Improve and protect degraded riparian habitats	Habitat	
	-Establish new areas of riparian habitats	Habitat	
	-Modify levee maintenance practices	Habitat	
	-Protect existing riparian habitat	Habitat	
Restoration of Upstream Anadromous Fish Habitat	-Manage flows and temperatures in upstream habitats	Habitat, Populations	
	-manage flows in upstream habitats	Habitat, Populations	
	-manage temperatures in upstream habitats	Habitat, Populations	
Physical Improvements for Fish Passage	-Modify passage at upstream dams/other barriers	Habitat, Populations	
	-Modify natural barriers to improve passage	Habitat, Populations	
Restoration of Upstream Riparian Habitat	-Restrict livestock grazing in riparian corridors	Habitat	
Installation of Barriers to Guide Fish Movement	-Install barriers to keep fish in Sacramento River	Habitat, Populations	
Management of Agricultural Drainage	-Reduce or control volume of agricultural discharges	Water Quality	
	-Modify cropping and irrigation practices	Water Quality
