MAY 0 4 1998

Dear Executive Director Snow,

I urge you to ensure that Cal Fed creates and selects a "Smart Alternative" (a fourth alternative) based on conservation and restoration to provide ample and high quality water for California's families, wildlife, farms and businesses into the 21st century.

The "smart alternative" would

- Restore and protect our watersheds and groundwater basins.
- Ensure effective conservation programs and economic incentives to use water more efficently.
- Maximize water efficency before even considering costly new dams, reservoirs or canals.
- Restore California's fish, birds, wetlands, rivers delta + bays

Please enter this comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

Sincerely

Annemarie Rosengren
