Attn: Rick Breitenbach

Dear Rick

I am writing to protest the extremely short time allowed for public review of CALFED's Draft Programmatic EIS/EIR. 75 days is not sufficient time to read and study such a lengthy document, even if I had one in hand. Combine the amount of reading necessary with having to travel to the documents and you can see that it's an impossible task. Please consider extending the review period. Thank You

Steve Worthley
