Lester Snow
CALFED Bay Delta Program:

MAY 11 1998

Dear Mr. Snow:

I am writing to make the following points regarding the current EIS/EIR for the "CALFED Plan":

1. I oppose all alternatives that require construction of new or enlarged dams.

2. I urge CALFED to expand water efficiency, conservation, reclamation to stretch existing water supplys instead of building dams, etc

3. I support CALFED proposed restoration objectives for Central Valley stream flows.

4. I oppose CALFEDs proposed restoration objectives for upper watershed forest management. We should not reduce wildfire threat by increasing logging. We should not resolve delta flow problems by building more dams.

Thank you for your attentive consideration of these critical habitat issues.
