The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

The San Francisco/San Pablo bays are so polluted that I am afraid to eat the fish from these waters. More canals, storage reservoirs and dams will only diverted more water from the bay system. Which in turn will increase pollution to our waters. We need to tighten RCRA laws, stop making tax payers foot the bill for large Coporate Farms. I'm for conservation let reduce the amount of water to our farm and cities. There is too much waste of water. Lets replenish the bay, delta system.
