Executive Director, CALFED
1416 Ninth Street
Sacramento, CA 95814

Dear Mr. Snow:

Please consider this letter a response to the revised CALFED plan.

I oppose CALFED's plan to increase [illegible] storage [illegible] CALFED's plan to raise Shasta dam would flood sediments of the upper Sacramento and McCloud rivers. CALFED's proposed Sites Offstream Storage Reservoir would require massive water diversions from the Sacramento River.

I urge CALFED to expand water efficiency, conservation, and reclamation programs to stretch our existing water supplies, instead of running new dams and canals. This could be done by switching to higher value and less water consumption [illegible] water meters for all agricultural and urban users.

I support CALFED's proposed restoration goals for the Central Valley, including removing some facilities such as the Englebright dam, that act as barriers to migrating salmon, acquiring important riparian habitat, and increasing instream flows for fish, wildlife and recreation.

We cannot solve the ecological problems caused by dams and diversions, by building more dams and diversions.

Thank you for your time and consideration.

Sincerely,

Name: [illegible]

Address: [illegible]
