Dear Executive Director Snow:

Please enter my comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

The CALFED Bay/Delta program must be revised to:

- Not commit building any new or expanded dams, reservoirs, or canals during CALFED's "Stage 1" (the first seven yrs of the program;
- increase investments in water conservation and efficiency, groundwater management, and drinking water treatment;
- improve water quality for people and wildlife by preventing pollution at the source;
- restore our rivers, bays, and fisheries by providing firm guarantees of more fresh water flows and by caring for the land around our rivers;
- not make tax payers subsidize new or expanded dams, reservoirs, or canals.

Thank You,

Edward D. Jenkins
