8/7/99

Dear Mr. Snow,

Please consider this a response to the revised CALFED plan.

I oppose CALFED's plan to increase surface water storage in the Central Valley by raising existing dams or building new off stream storage reservoirs. CALFED's plan to raise Shasta dam would flood segments of the upper Sacramento and McCloud rivers. CALFED's proposed sites off stream storage reservoirs would require massive water diversions from the Sacramento River.

I support CALFED's proposed restoration goals for the Central Valley, including removing some facilities such as the

Englebright dam, that act as barriers to migrating salmon, acquiring important riparian habitat, and increasing stream flows for fish, wildlife and recreation.

We cannot solve the ecological problems caused by dams and diversions, by building more dams and diversions.

Thank you for your time and consideration

Sincerely,
Andrea Gleits
