

## Memorandum

Date: October 2, 1995  
To: Workshop Participants  
From: Lester A. Snow, Executive Director  
CALFED Bay-Delta Program  
Subject: Primary Problem-Objective Statements

Attached for your review and discussion at the October 12, 1995 Workshop are four draft Primary Problem-Objective statements. There is one primary objective for each resource area.

These narrative summaries were developed in response to comments that the problem statement and hierarchy and objective statement and hierarchy were too long and "sterile" to provide a casual reader with a feel for the problem. Furthermore, these narratives were developed to introduce the aspect of linkages between the Primary Problem-Objective areas.

These Primary Problem-Objective statements can help us move into a discussion of action categories and perhaps a first level identification of bundles of alternatives which meet multiple objectives. These Primary Problem-Objective statements should be considered as general summaries in the context of the more detailed problem statement and objective statements included in this package.
