Dear Sir

I am writing this letter today to urge you to oppose any CALFED programs that require any construction or expansion of dams.
In addition, I would ask that you support the restoration projects/objectives in the Sac Valley including flood plain management.
I would like you to oppose CALFED's restoration projects for the upper watershed areas. You can't increase water flow by increasing logging.
I would like a response from you. This letter is in response to the CALFED EIR please enter
