Dear Executive Director Snow,

I am urging you to consider a fourth alternative to CalFed's plan based on conservation & restoration to provide ample & high quality water for Californias families, wildlife, farms, businesses and forests into the 21st Century.

"Smart Alternative" would

- ensure effective conservation programs & economic incentives to use water more effecently.

C-010974

C-010974

- maximize water efficiency before even considering new dams reservoirs or canals

- restore & protect watersheds and ground water basins for high quality reliable water for people and wildlife

- restore California's fish, birds, wetlands deltas and bays.

Please enter these comment into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

Sincerely

Dr and Mrs Michael Jacobs Jr.
