CALFED Plan
1416 Ninth Street
Sacramento, California 95814.

JUN 01 1998

Dear Sirs;

Please accept my following comments concerning the CALFED Plan.

The CALFED Plan is designed to destroy the water and land resources of California.

As the suggested new and enlarged dams and canals will decimate fish, wildlife, plants, recreation, scenic, soil and water attributes.

With this proposal to devastate all ground waters along with the removal of very important farm and ranch areas.

And promotes the obliteration of unique, varied, and fragile forest areas.

By this, oppose this CALFED Plan.

And oppose all dams and canals, including, the Auburn Dam, Cottonwood Creek Dams, and Sacramento River / Mokelumne River / Fall River Dams.

As these projects will ruin habitats for all salmon species.

And this Plan could eventually cost trillions of dollars.

Sincerely,

John R. Swanson
