JUN 0 2 1998

5/28/98

Dear Mr Snow,

I'm writing to let you know my feelings about the proposed CALFED plan and the Sac-San Joaquin Delta. While I support the concept of restoring the Delta and protecting its health, I oppose strongly enlarging or building new canals or dams. I also oppose CALFEDs proposed objectives for upper watershed forest management which would increase logging.

I do support proposed restoration objectives for Central Valley streams & related issues (flood plain management, riparian habitat etc.)

Respectfully,
C. Rose
