Dear Mr. Snow, 01037 JUN 10 1998 May 25, 1998

I am a taxpayer definitely opposed to new or enlarged dams + canals, including the Peripheral Canal and an enlarged Shasta Dam.

The people of the west need water conservation education + programs, not more dammed rivers. We need our rivers to be riparian habitat and ecosystem sanctuaries. The people of the future will thank us if we give them this, just as we thank the creators of our parks for their global thinking so long ago.

I support CALFED's proposed restoration objectives for Central Valley stream flows and associative concerns.

I oppose CALFED's proposed restoration objectives for upper watershed forest management + delta hydraulics. Increasing logging and building more dams are shortsighted, faulty ideas.

Californians, and westerners in general, need comprehensive water efficiency use plans.

Thank you.

Sincerely,
Lisa Currett
