CALFED BAY-DELTA PROGRAM

Public Comment

JUN 12 1998

Date 6/9/98

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

All the water solutions are poor. Fix the problem once and for all by building a de-salination plant for central and southern Calif.

- It will be the highest utilization of tax dollars
- Can adjust water output according to area needs especially in long drought years and increasing population.
- Doesn't destroy the Delta's delicate ecosystem
- Doesn't place more ugly cement canals along the valley.
