To: Program Coordination Team Liaisons

From: Steve Yaeger, Program Deputy Director *S*
CALFED Bay-Delta Program

Subject: Review of CALFED Bay-Delta Program workshop materials

I want to thank you for your comments during the "red flag review" following the November 7 PCT meeting. We apologize for the short time frame dictated by the mailing date for the December 4, 1995 workshop. The concerns expressed during this review were considered as we prepared the revised materials for the workshop mailing.

Although you may receive the workshop materials in a separate mailing, we are distributing the attached set for your agency's more in-depth review. In particular, please pay close attention to the supporting documentation, specifically action category descriptions, in the appendices. This detailed material will be the basis for subsequent alternative development steps in our process. Your specific written comments on this detailed material are necessary to proceed with subsequent steps in our process.

The program has made the Action Category Descriptions in Appendix B available for your review in several separate packages. This package contains the latest versions of all of the descriptions we currently have developed. The concerns expressed during previous "red flag" review and in connection with the October 12 workshop were considered as we prepared the revised descriptions. It is important that these descriptions reflect issues accurately, since they will form the basis for alternative development and evaluation. Therefore, the careful technical review of this material by the appropriate experts in your agency is extremely important for us to continue our efforts in developing and evaluating alternatives.

The timely review of this detailed material is important to meeting our program schedule. Therefore, we would appreciate receiving your written comments prior to December 15, 1995. We are always appreciative of the comments we receive. However,

CALFED Agencies

California
