1416 9th Street Suite 1155
Sacramento, Ca. 95814

We do not want our water shipped South! We feel that building Dams and saving all this water that floods us in the Winter Time is a good idea!

We have 2 to 3 feet of water flowing across our 170 acres since they degraded the M & T Levees and designated us a Flood way!

"That water could be saved"!

"Leave our underground water alone"!

We need it here!

Sincerely,
Gladys and Harold Jones
