

Example Preliminary Boundary Alternative

Category and Actions	Fisheries and Diversions	Habitat and Land Use/Flood Protection	Water Supply Availability and Beneficial Uses	Water Quality and Land Use
Restoration of Shallow Water (Tidal) Habitat -restore tidal action to existing diked wetlands -reconstruct levees to include shallow water habitat	X X	X X		
Restoration of Delta Riverine Habitat -reconstruct riverbanks and shallow areas -restore and preserve channel islands -modify levee construction practices to include riverine elements	X X X	X X X		
Restoration of Upstream Anadromous Fish Habitat -manage flows and temperatures in upstream habitats	X		X	
Acquisition of Water Supplies for Fish and Wildlife -acquire water to augment instream flows -obtain shifts in timing of instream flows	X X	X X	X X	X
Delta Inflow/Outflow/Export Management -modify upstream reservoir operations criteria -modify Delta inflow timing pattern -provide instream pulse flows for fish passage	X X X		X X X	X
Improvement of Delta Fish Migration -install barriers to keep fish in Sacramento River	X			
Fish Harvest Management -improve regulation of commercial take	X			
New or Expanded On-Stream/Off-Stream Storage -construct new on- or off-stream storage upstream of the Delta -modify operations of existing storage reservoirs			X X	X
Groundwater Banking and Conjunctive Use -store groundwater upstream of the Delta -modify Water Code to encourage conjunctive use			X X
