Cal Fed Bay / Delta Program
1416 Ninth Street
Suite 1155
Sacramento, CA 95814

Dear Executive Director Snow:

I ask you urgently to endorse for Cal Fed a "Smart Alternative" whose basic premises are conservation and reliable, high quality water for California.

The main features of the "Smart Alternative":

(1) It ensures strong conservation programs & economic incentives to use water efficiently.

(2) It maximizes water system efficiency before even considering costly and intrusive new dams & reservoirs or a Peripheral Canal.

(3) It restores and protects our watersheds and groundwater basins.

(4) It restores California's fish, birds, wetlands, rivers, deltas, bays.

Please enter these comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

Yours Sincerely
Leonard Horwitz
(LEONARD HORWITZ)
