The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

I am told that Calfed plans to increase the size of one of califiornias reservoirs and that most of the water from this reservoir is already being diverted to southern Cal. I think that this is a terrible Idea. If souther California cant make do with the water their all ready getting from northern california then maby they should try what we have done, conserve what they get.
