TO: Lester Snow - CAL-FED

Dear Lester;

I feel CAL-FED has not to this day gotten the real PUBLIC'S VIEWS. While jamming down the PUBLIC'S THROAT the views and findings of your inter-agency conspiracy. Passing money to the inner circle, instead of Repairing Levee's and doing the good that money was put their for.

You are helping erode the United States constitution and values of the land.

Please include in your reports the true Historical Bureau of Land Management records showing all original Patents, titles, Soverign Private, Allodial lands.

Sincerely
Harvey Goldberg
