Lester Snow, Executive Director

Calfed

1416 Ninth Street

Sacramento CA 95814

Dear Mr. Snow,

I am writing in regard to the current Calfed Plan currently up for public comment. My concern is that not enough is being done to increase efficiency and to encourage conservation. Before large projects are planned and constructed we must increase efficiency. We cannot make it ever more rational to waste resources. It would be a shame, almost sinful, to compound past errors simply because that's the way things are. I am in favor of balancing growth with real environmental conservation.

Sincerely,

Jeffrey Chandler
