Dear Mr. Snow

Please consider this letter a Response to the Revised Calfed Plan.

I oppose Calfed's Plan to increase water storage in the Central Valley by raising existing dams or building new offstream storage reservoirs.

Instead Calfed should focus on maximizing water conservation, efficiency and water reclamation, such as metering all agricultural uses which would encourage use of less water consumptive crops.

I'm sitting by one the ~~the~~ many beautiful rivers that feed the

Sacramento River. I encourage & commend the restoration aspects of the Calfed Plan

Please write me back with your response to this letter. Thank you for your consideration

Sincerely
