August 4, 1999

Dear Mr. Simms,

I am writing this letter to you to let you know that I oppose CALFED's plan to increase surface water storage in the Central Valley by raising existing dams. As a guide on the SFA rivers I am able to enjoy the rivers and share that with other people.

Dams only really serve to destroy wildlife fish, and natural recreational areas. So once again I reiterate the opinion that I oppose the construction or raising of any new dam.

Thank you, [illegible]
