To whom it may concern.

AUG 1 2 1999

Please note this letter as a response to the revised CALFED Plan.
It has come to my attention that these measures would ~~note~~ be appropiate.

I enjoy river rafting and ~~want~~ want my children to be able to do the same thing.

We cannot solve ecological problems caused by dams & diversion, by building more dams & diversion

I hope you understand my reason for concern!
Thank you for your cooperation
