Rick Breitenbach
CalFed Bay-Delta Program
1416 Ninth St, Suite 1155

Dear Mr. Breitenbach:

Hi, my name is Nicholas. I take marin biology at the Acadamy in Berkley. We have learned about CalFed, the estuary, and agraculture. I know that an estuary is were salt water and fresh-water combine and that it has the most sea animals. I also know that if there is not enough fresh water in th Bay-Delta system, animals

(over)

and fish that depend on the estuary and fresh water streams will die. I think you should allow more fresh water to stay for all the future generations to enjoy our wonderful resources.

Sincerely,
Nicholas Limberg
