lester Snow
Executive Dir, Cal fed
1416 Ninth St
Sacramento

Dear Mr. Snow,

Please consider this letter a response to the revised CALFED Plan.

I oppose this plan to build new dams and ruin existing precious eco systems.

~~Pl~~ I urge CALFED to increase reclamation, conservation to help our existing H_2O supply.

I think it's great you are restoring the Central Valley to increas the fish, wildlife and recreation for everyone.

0173-2

Dams & Diversions are NOT the way to solve ecological problems

Please listen! A response would be appreciated
