AUG 1 9 1999

Dear Mr Snow,

Please consider this letter [illegible] response to the revised CALFED plan. I urge CALFED to expand [illegible] efficiency, conservation, and reclamation programs to stretch our existing water supplies, instead of building new dams and canals. This could be done by switching to higher value and less water consumptive crops and by installing water meters for all agricultural and urban users.

We cannot solve the ecological problems caused by dams and diversions by building more dams and diversions.

Thank you for your time and consideration.

Sincerely,
Leslie Elliott
