AUG 1 9 1999 0217

Lester Snow
Executive Director, CALFED
1416 Ninth St.
Sacramento, CA 95814

Dear Mr. Snow,

I would like you to consider this letter as a response to the revised CALFED plan.

I oppose CALFED's plan to raise existing dams and build new offstream storage reservoirs. I urge CALFED to expand water efficiency, conservation, and reclamation programs to use our existing water supplies more efficiently, instead of building new dams and canals.

I support CALFED's proposed

restoration goals for the Central Valley, including removing the Englebright dam and other facilities that act as barriers to migrating salmon.

We cannot solve the ecological problems caused by dams and diversions by building more dams and diversions.

Thank you for your time and consideration.

Sincerely,

Molly Gantz
