Lester Snow, Director
Cal Ed

Dear Mr Snow,

Today I am travelling along the American River on a rubber rope. I'd like to suggest that you take one day this summer to do that.

You will see, if you take the time to look, how important free rivers are to humans — to our spirit —

We all are overworked, overstressed — we are important to consider when

C-112769

you are making decisions —
you are in a position
to create food for our soul
AND to give the
environment something —
Spare gift — your place
in the world.

Don't sell out to B&B
interests if you can
help yourself —

Sincerely

Paula Downing

a 60 year old mother
of 4 —
