Dear Mr. Snow,

I am moved to write a response to the Calfed Pla to increase Water Storage by raising existing dams or building new ones. I am opposed to the raising of Shasta Dam due to possible flood of parts of the upper Sacramento & McCloud Rivers.

Please consider expanding wat efficiency, conservation & recla tion programs to stretch exi ing water supplies instead of new dams & canals.

I support Calfed's proposal for restoration in the Central Valley, including removing some facilities as the Engelbright Dam that are barriers to the Salmon.

Sincerely,
Pam [illegible]
