8/26/99

Dear Lester Snow

Please reconsider this letter in response to the CAL-Fed Plan. I oppose the planned project about the damming of the river. Increasing the height of the dam.

I suggest water conservation & reclamation programs instead.

I support CALFEDS idea to restore goals for Central Valley: such as removing the Englewright Dam & support fish & wildlife.

Please send me a letter telling me what your stance is on these

issues) at this address.
