Lester Snow
Executive Director, CALFED
1416 9th St.
Sacramento CA 95814

Dear Mr. Snow,

I oppose the revised CALFED plan to increase surface water storage in the Central Valley by raising existing dams or building more offstream storage. Specifically, Shasta Dam should not be raised, and water should not be diverted from the Sacramento River.

Please expand water efficiency, conservation & reclamation programs instead, including the installation of water meters for all users. Please expand your restoration goals, such as removing the Englebright dam.

Stop building dams!

Thank you for your time. I look forward to your response. I am writing to you from the shores of the American River which would be even more beautiful were it not dammed.

Best regards,

FRAN MATHEW
