CALFED BAY-DELTA PROGRAM

Public Comment

Date 9/19/99

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

Please do not commit to building new, or expanding old, dams, reservoirs or canals during Calfed Stage 1.

Increase investments in water conservation, efficiency of use, groundwater management, water treatment and reuse.

Guarantee fresh water flows to rivers, bays, wetlands, to restore wildlife, waterfowl, fisheries.

Agricultural corporate interests have received enough subsidies over the years. They should be required to stop growing crops such as rice and cotton which use excessive amounts of water and are inappropriate for a state short of water.

I don't want my tax money to be used to enrich agribusiness at the expense of the natural environment.
