Comments:

My name is Paul Lum and my family farms near Vacaville. We have farmed for 40 years. Most of our irrigation water is surface water from Solano Irrigation District, which conveys water from Lake Berryessa.

I feel strongly that Cal Fed needs to develop additional water storage. I believe that Cal Fed can achieve its goals of adequate water supplies for people, farms, and habitat while improving the environment, by utilizing more storage, promoting conservation, and NO ag land loss which results in a loss of ag production.
