Dear Mr Ritchie,

This is to request an extention of time for comment on the final environmental report released July 21. Cal Fed must hold public hearings to acquaint those who will be impacted by it can understand it.

In spite of the fact that this plan will impact a quarter of a million acres of our land we hear of no plan to put this lost production back in place. This plan will add to the thousands of acres of farmland already being lost to other non production uses

Yours truly,

O.J. Rosasco
