Re: Final Programmatic EIS/EIR

Dear Ritchie

As a farmer in the Sacramento Valley, my family has always take pride in enhancing the wildlife value of our farm and, many others do also. We take seriously our role as stewards of the environment and want to be partners in restoration activities. But farmers oppose requirement that we what to grow and how to grow it Cal-Fed must work with farmers in a cooperative spirit

I feel Cal-Fed should hold public hearing to explain its plans before they become final. Cal Fed should tell us how its plan has changed and how it will affect people.

Sincerely

John C Oh
