August 9, 2000

Mr. Steve Ritchie, Acting Executive Director
Cal-Fed Bay-Delta Program
1416 Ninth St., Suite 1155
Sacramento, CA. 95814

Dear Mr. Ritchie:

Through 3 generations of farming, my family and I have become very large + prosperous farmers in my area. With over 1,000 acres of walnut trees, my day is filled with caring + maintaining these trees to yield admitt earnings each year.

Water shortages have becoming a great concern to me and to the rest of the farmers of California. Cooperation and Collotation with ~~[illegible]~~ us, farmers, would be greatly appreciated. Water supply would allow us to grow and keep the environment as it is and keep the wildlife safe.

Cal-Fed should keep us posted and consider the farmer its closests ~~[illegible]~~ ally.

Sincerely,
[signature]
