R.E. Final Programmatic EIS/EIR.

Dear Mr. Ritchie,

I am a farmer, land owner and vineyard manager wrapped up in one. Water rights are at the forefront. Groundwater is what I use but am concerned of water as a whole. Railroading your program is unethical. 30 days for review of your current proposal is ludicrous. 6500 pages in 30 days? Absurd. Public comment means alot for all concerned. Please consider using your common sense by using others common sense - Extend your review period.

Sincerely, Del Fauchland
