WANT TO KEEP OUR BAY & DELTA SPARKLING CLEAN AND HEALTHY?

DON'T DUMP

Follow these simple practices to ensure your boat wastes don't pollute our waterways.

- Use public toilets onshore before departing.
- Equip your boat with a marine toilet and Marine Sanitation Device. Empty holding tank wastes at one of the Bay/Delta's 75 pumpout facilities.
- If your boat is plumbed for overboard discharge, keep the "Y" valve secured in the closed position using a non-releasable wire tie or padlock.
- Use a port-a-potty and dispose of wastes at a dump station onshore or in your toilet at home.
- Never dump raw sewage into Bay or Delta waters.
- Never discharge wastes, whether treated or not, in Marin County's Richardson Bay, a federally designated No-Discharge Area.

DON'T DUMP USE THE PUMP
