2/21 CALFED - Public Session

Obj. - of workshop
Issues not identified - need to get out.

1929 - Description of Δ - Jason Peltier

Bobker - Do we have enough time to do job right?
Lester - will know over next 30 days.

If spring run is listed - Ops. Group will deal with.

NMFS working on reviewing status of chinook salmon along the coast. Status report will be available in the early fall.

Coord. Process -
Ed Winkler for Wiley Horne - positive improvement
- CALFED / Stakeholder Partnership - support MOU
- support coordination of Restoration activities
- Crediting is critical - for motivation + for continuity
- Support hiring coordination manager

Cynthia Koehler -
- Need to clear up questions before buy in
- CVPIA needs to be part of.
- Need a plan to make funds flow into the program

Booker – concern – Cat. III formulation dealt w/ an adequate vehicle for funding contributions, Resolution may not come quickly to new process.
– Appropriate for CALFED to take lead in priority setting.

March 14 – Restoration Roundtable

Next CALFED meeting – discuss again – process
Small sub group to meet & flesh out.

Guidance document

March 26 – No stakeholders
April 30 – stakeholders.
