L. Snow

June 25, 1999

Dear Mr. Hannigan,

I am writing you to ask that you please support the CALFED Bay/Delta program. This program would protect our rivers, bays, and drinking water. It would also prevent the construction of new dams that harm wildlife and take water from rivers. Please do not be swayed by agribusiness and developers – they do not represent the majority of Californians.

Sincerely,

Kristen Kessler
