Governor Gray Davis
State Capitol
Sacramento, CA 95814

Dear Governor,

We are concerned about the future of California's rivers, bays and drinking water. We recommend the CALFED Bay/Delta program, a plan on how to protect and use our resources for the next 50 years.

This plan invests in water efficiency for a least seven years before considering new dams or ~~reservation~~ reservoirs. It restores our rivers, bays and fisheries with fresh water and ~~caring~~ cares for the land around our rivers. Improves water quality for all life by enforcing pollution limits. Ugh!

Importantly, it stops making us pay for studies of new dams and reservoirs that flood habitat and deplete fresh water from our rivers. We urge you to ensure the CALFED program.

Sincerely

C.C. Tom Hannigan
