DEAR GOVERNOR DAVIS:

A QUICK NOTE TO YOU expressing my CONCERNS ABOUT protecting California's WATER Resources.

I ASK that you actively support the "CALFED, BAY/Delta" PROGRAM. I feel STRONGLY, that in the long RUN ALL CALIFORNIANS will be best served by putting this PLAN INTO place.

I'm an old (77) NATIVE & have survived MANY state leaders. I wish you well in your leadership efforts & I feel you have made A good start under good economic conditions.
