Governor Gray Davis
State Capitol
Sacramento, Ca 95814

Dear Governor Gray Davis,

I spend much time in the mountains and forests and would like to see the highest standards of protection for all water: drinking, bay, river and ocean. I urge you to ensure that CALFED's program: restores rivers, bays and fisheries by providing adequate fresh water and protecting the surrounding land, that strict pollution limits are enforced strongly, that CALFED invest in water efficiency programs for at least seven years and oppose new dams or reservoirs, and finally endorse a program that doesn't make taxpayers pay for studies of new dams and reservoirs that should be opposed anyway. Thank you for listening to my opinion.

Respectfully,
Don Dumont
