Water Resources Director

Dear Sir

Please honor the request & formally made to Governor Gray Davis to support the Sierra Club sponsored Cal Fed Bay/Delta program to plan how to protect and use California water resources for the next 50 years

(1) Invest in Water Efficiency

(2) Restore our rivers, bays and fisheries

(3) Improve water quality by enforcing pollution limits

(4) Stop making Taxpayers pay for studies of dams and reservoirs destroying natural habitat — all for the benefit of corporate benefit

Very Truly Yours
