6-11-99

Governor Gray Davis

Subject: CALFED BAY/DELTA PROGRAM

Please support the best plan to protect and use California's water, by ensuring that the CALFED program:

- Invests in water efficiency — for at least seven years before considering or studying new dams or reservoirs
- Restores adequate freshwater to rivers, bays and fisheries and protects the land around the rivers
- Improves water quality for people and wildlife — enforcing pollution limits
- Stops studies at taxpayer expense for new dams and reservoirs that damage the environment and natural habitat
