June 16, '99

Dear Tom,

I'm writing to urge your support of the CALFED Bay/Delta program.

Bill & I both believe that it will provide for efficiency in water use, restoration of rivers, bays, & fisheries, & improvement in water quality.

Glad you're director of the water resources board. Please ignore pressure from developers & agribusiness. Support our vision in making California a place with a sustainable water future!

Sincerely yours,
Barbara & Bill Knox
