June 16, 1999

Governor Gray Davis
State Capitol
Sacramento, CA 95814

Dear Governor Davis:

I strongly urge you to embrace and help implement the CALFED Bay/Delta program. We have tamed the desert West and made it bloom – but at a tremendous cost to the natural environment. It is now time to invest in water efficiency to make new dams and reservoirs unnecessary; to restore rivers, bays and fisheries using the water saved; to improve water quality by reducing pollution; and to look at dams and reservoirs as drains on tax payers funds that flood natural habitat and damage the vitality of our rivers. Your leadership is desperately needed to chart a smart course.

Sincerely, Allan F. Brown
